ABOUT ME

A self-motivated technology expert with a focus on Full-Stack development desires to work with your Organization as a Web Developer to contribute to creating an extraordinary experience for the company's technical audience. Advanced knowledge of Object-Oriented JavaScript, Node, Vue, Angular, React, modern JS libraries, CSS, HTML5, TypeScript, and Python will be put to maximum use along with strong skills and ability in writing clean and efficient code.

WORK EXPERIENCE

FREELANCER
Web Developer, Jan 2015 - Now

I left DATAPARK BD LIMITED and started to work as a fulltime Freelancer in Web Development. In the meantime, I decided to learn NodeJS and Angular for turn my career to the full-stack development section. I've done a couple of projects in NodeJs. I like to challenge myself. I like to learn - so I like to try new things and try to keep growing.

DATAPARK BD LIMITED
System Engineer, Apr 2015 - Jan 2017

As a part of my IT career, I have joined Datapark (BD) Limited which is one of the brightest limited company in IT sector in Bangladesh. I'm working here as their system engineer. My objective for this position is to provide them with every kind of IT support, internal networking, maintain their local server and distribute the bandwidth between office stuff.

OUTSOURCING NET BD
Web Developer & Team Manager, Feb 2013 - Dec 2014

I started my basic IT career on Outsourcing NET BD. It's an IT farm based on outsourcing work. I'm working here as a web developer. My objective for this position is to provide the IT support and develop websites as their client's demand. I've also maintained their website and company database.
